

# Material Safety Data Sheet

## Cement Dispersant (NDCD)

Oil Field

### PHYSICAL PROPERTIES

|               |        |
|---------------|--------|
| Appearance    | Liquid |
| Color         | Brown  |
| Pure point    | -      |
| PH@ 25c       | 6 - 8  |
| Density       | 1.02   |
| Odor          | Mild   |
| Flash Point   | -      |
| Oil/Solvents  | -      |
| Boiling Point | -      |
| Isopropanol   | -      |
| Solubility    | -      |

### CHEMICAL COMMENTS

Dispersing agent for cementing in drilling operation.

### CHEMICAL ACTIVE :

- 1-Lignin polymeric compounds.
- 2-Salt of amines.
- 3-Filler.
- 4-special additives.

### HAZARDOUS

In case of skin, eye contact wash with water.  
 In case of swallowed wash with water and go to doctor.  
 In case of inhalation go to doctor.

### USAGE

Liquid dispersant for cement in drilling application.

### PACKING

208 Liter Drums

### REF

Congis Iomar D
